

9th November 2007

The Rt Hon Robert Winter
Lord Provost of Glasgow
Glasgow City Council
City Chambers
George Square
Glasgow G2 1DU

My dear Lord Provost

On behalf of the Scottish home building industry I would like to congratulate Glasgow on its successful bid to host the Commonwealth Games in 2014.

We have seen at first hand the tremendous amount of hard work invested by your team at the City Council and we are certain that it was the Council's positive and pro-active approach that lay behind the success of the bid.

There will be many challenges ahead to provide the infrastructure that the games will require but we are confident that the Council's 'can-do' attitude adopted during the bidding process, will ensure continuing success.

As an industry, we are committed to working in partnership with Glasgow to deliver a Games Village that will not only provide facilities for athletes and officials during the event but will stand as an iconic reminder of the Glasgow Commonwealth Games for future generations.

Yours sincerely
